Excerpt: . . . 2. 0 COMMON ISSUES FOR REHABILITATION SYSTEMS In this section, key issues will be explored that cut across both water and wastewater applications and that apply to many of the specific technologies used for rehabilitation. Rehabilitation systems are already applied ( field installed ) widely with good success, but it is believed that improvements in certain areas will provide more consistent design approaches among methods, more competitive bidding and method selection processes, and better quality assurance and quality control ( QA QC ) for these systems. 2. 1 Need for Rational and Common Design Approach for Rehabilitation Systems Most rehabilitation methods have been developed as proprietary systems; the standards for their design and use have been developed on a technique-by-technique basis, even though the design principles have many common elements. Many technical innovations start in this way with the design, construction, and many aspects of QC being provided by the company offering the...
