Brand New Book ***** Print on Demand *****.Excerpt from Laboratory Manual: Containing Directions for a Course of Experiments in Organic Chemistry, Systematically Arranged to Accompany Remsen's Organic Chemistry, Revision of 1992 The student is expected to be familiar with the General Part of Gatterman's Practical Methods of Organic Chemistry, translated by Schober and Babasinian, 3d American Edition, pages 1 to 77. Descriptions of the methods used in the Laboratory of Organic Chemistry will be found in this part of the book. Before beginning any experiment the student is expected to read carefully the directions given in the Laboratory Manual for that experiment and to be sure that he understands them. If in doubt about any point he should consult the instructor or the assistant before beginning the experiment. He is urged to read ahead of the experiment he is doing, when opportunity presents itself, and he will find that it is frequently possible to be carrying on two or more experiments at the same time. It is necessary to use every minute in the laboratory to advantage in order to finish the...
