SIGNATURE OPERATOR

Betascript Publishing. Taschenbuch. Book Condition: Neu. Neuware - In mathematics, the signature operator is an elliptic differential operator defined on a certain subspace of the space of differential forms on a even dimensional compact Riemannian manifold, whose analytic index is the same as the topological signature of the manifold if the the dimension of the manifold is a multiple of four. It is a instance of a Dirac-type operator. A differential form of degree k , or (differential) k -form, on a...
