Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.A How To for the Genealogist and Historian, this book will guide you through writing a professional-level supportable history based on genealogical research. Additionally it will help you write professional-level genealogies based on historic studies. I have often been asked How do I write a Family History from my Genealogy work? As an historian I have asked How do I write a Local, Neighborhood or Organizational History using Genealogy information to understand the people involved? This book is what I have developed over ten years of researching the answers to these questions. As a certified Project Management Professional and a college instructor I wanted a structured, rigorous, professional approach that could be taught to others so they could produce the great histories that their families and communities deserve. These are my answers to those two questions. I continue to use these solutions to guide my efforts to develop and publish histories.
