Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from A Text-Book in General Physiology and Anatomy This text is not intended to be used as a substitute for laboratory study. In my Experimental Physiology and Anatomy are outlined laboratory exercises which should be first performed by the pupil himself, if possible, before he is assigned a lesson in this text. While written as a supplement to the laboratory guide mentioned, the text is suited for use with any other laboratory manual and, where lack of laboratory facilities renders such preliminary work impossible, its description of the laboratory exercises is sufficiently full to permit its use where a textbook alone must serve. The text meets both the optional and required work of the New York State Syllabus and the requirements of the Harvard entrance examinations. Its topical arrangement and the printing of less important details in finer type make it adaptable to longer or shorter courses of study; and in these structural details the author has endeavored to make the book meet the needs of all classes of schools. I wish to acknowledge the helpful suggestions given me by my colleagues of the High School of Commerce, and by Professor Geis of Columbia University and Dr. Darling of Harvard University. I am especially indebted to my colleague Mr. C. W. Hahn for his very careful reading of the proofs and his many helpful suggestions, and to my wife for assistance in the revision of grammatical arrangement and in the mechanical details of the work. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
