Brand New Book ***** Print on Demand *****.Self absorbed mothers have been part of our society for millions of years. It has enabled writers to pen fairy tales such as Snow white and Cinderella. They are usually portrayed as evil step mothers rather than biological mothers, although biological mothers are just as capable (either in awareness or totally outside their conscious awareness) of abusing and manipulating the minds and hearts of their offspring. As therapists we are well aware of the self absorbed or narcissistic mother and the impact they have on their children s lives which predominantly come out in adulthood. They fill our therapy rooms and keep us in business. Without a doubt they will access therapy at some point in their life usually after several failed relationships or when suffering with anxiety or depression or both. As their story unfolds we learn about the hidden and often covert abuse they have experienced at the hands and minds of the one person, the first person they have learned to trust, the person who gave birth to them and were supposed to nurture and love them unconditionally throughout their lives, their mother. We now live in a society where we see mums continuously on their computers playing angry birds, candy crush or networking on facebook and taking selfies to publish on social media. They are on their mobile phones, I pads and laptops and their children are crying for attention. They say just a minute honey which are nice words if they were not giving a covert message to their children that this black box in front of my face is far more important than you or your emotions right now. Are they all...
